At Blades of Green, Culture is not a Buzzword.

We go beyond just talking about culture - we live it. Our commitment to fostering an employee-focused environment sets us apart from other employers. We believe that a great culture means actively and authentically supporting our team members, their families, and the community we call home.

We strive to create a workplace where everyone feels valued and supported. Whether it's team-building outings, holiday celebrations, or hosting fun events for our team members to enjoy with their families, we prioritize creating lasting memories and fostering a sense of belonging - all while growing careers.

But our dedication to building a strong culture doesn't stop there. We actively give back to the community we are a part of. Through volunteer initiatives, partnerships with local organizations, charity fundraisers (like the Lighthouse Shelter 5K pictured above), and other charitable contributions, we aim to make a positive impact beyond our office doors. We are proud to contribute to causes that matter and help make our community an even better place.

At Blades of Green, we're not just about words - we're about action. Our employee-focused culture, commitment to the community, and dedication to improvement reflect our values and drive us to continuously evolve. We are proud of the culture we've built and look forward to creating an even better workplace for our team members in the future.

Administrative Professionals Day

We had a great time at the end of April celebrating Administrative Professionals Day. We cooked out, played Mad Libs, and had opportunities to thank the administrative staff that power our business. It is important to take time to say thanks, and even more fun when food is involved!
